

WATER SAVING POLICY

1. PURPOSE

As Heybeli Hotel, its efficient Water Management and Conservation Policy outlines its commitment to responsible and sustainable water management practices. Our goal is to ensure that water resources are used efficiently, fairly and environmentally responsibly in all our operations and activities. This policy serves as a guideline that supports our water stewardship goals for all employees and stakeholders.

2. SCOPE The policy applies to all facilities, employees and contractors of Heybeli Hotel and covers all activities related to water, including but not limited to its supply, consumption, treatment and discharge.

3. OBJECTIVES The hotel is committed to the following water management objectives. Heybeli Hotel is committed to responsible and sustainable water management. We believe that by following this policy, we can contribute to the responsible management of water resources, protect the environment, and ensure the availability of clean and safe water for current and future generations.

3.1. Water Efficiency: Strive to reduce water consumption and improve water use efficiency in our operations and operations.

3.2. Environmental Responsibility: Minimizing negative impacts on local ecosystems, water bodies, and aquatic life through responsible water use and discharge practices.

3.3. Compliance: To ensure compliance with all local, national and international water-related regulations and standards.

3.4. Conservation of Resources: Promoting responsible management of water resources in order to preserve the availability of water for future generations.

4. RESPONSIBLES

4.1. Senior Management: Senior management shall set an example of responsible water management and provide the necessary resources for the effective implementation of this policy.

4.2. Employees: All employees are responsible for understanding and implementing this policy, reporting concerns about water stewardship, and participating in water conservation efforts.

4.3. Contractors and Suppliers: All contractors and suppliers working with Heybeli Hotel are expected to comply with this policy and are encouraged to adopt similar practices.

5. WATER MANAGEMENT PRACTICES

5.1. Water Efficiency: Implementing water-saving technologies and practices in our operations. We regularly monitor and report on water consumption and identify areas for improvement. We encourage the recycling and reuse of water where possible.

5.2. Environmental Responsibility: We monitor and control water quality to prevent pollution and ensure compliance with applicable regulations. We take measures to protect and restore local aquatic ecosystems. We participate in community initiatives for the protection and conservation of water.

5.3. Compliance: We are aware of and comply with all water-related laws, regulations and permits. We regularly audit and review our water management practices to ensure compliance.

5.4. Conservation of Resources: We support water conservation efforts within our communities. We promote water sustainability and education among our employees and stakeholders.

5.5. Review and Improvement: It will be reviewed annually to ensure its effectiveness and compliance with this Water Management Policy. Necessary changes and improvements will be made to comply with our goals and evolving best practices.
